Mounting Procedure for Parrot MK6100

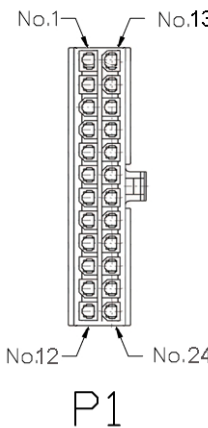

Note :

- In some VW cars, the 12V ignition isn't present on the VW harness so you need to connect it to another place (Fuse box,...)
- Mute position can be different on some radio. Please also check the wiring diagram on your radio instruction to respect the correct wiring.
- If your audio system is equipped with an external amplifier, you don't need this adapter. Another solution can be used.

Parrot MK6100 connections

Pin	Color	Function
