Parrot MINIKIT CHIC Portable Bluetooth® hands-free kit

Sleek and lightweight

The Parrot MINIKIT CHIC is a portable Bluetooth hands-free kit sporting a profiled, sleek design. Thanks to its space-saving design, it offers countless uses: in the car, in the office and at home. Its highly intuitive interface will automatically connect to your Bluetooth phone when nearby. Fixed to the sun visor or laid on a table, it adapts to every environment and can easily be carried around in your pocket.

Uncompromising audio quality

Parrot has combined its audio expertise with the vibrating panel technology. No more speakers - the top panel is connected to the audio circuit and vibrates to reproduce natural, open sound. The results are spectacular - stunning sound quality, crystal-clear conversations and power always ready to go. The especially discreet high sensitivity microphone is fully built into the design.

All your contacts whenever you want

Once paired, the Parrot MINIKIT CHIC automatically synchronises* its phonebook with the contacts on your mobile phone. The phonebook on the MINIKIT CHIC is updated seamlessly whenever it connects*. The entire phonebook is available at all times thanks to the voice synthesis of the names (Text-To-Speech function). Practical and indispensable.

It recognises every voice

Fancy calling one of the contacts in the phonebook? Say the name and the MINIKIT CHIC recognises it without any prior training and dials the number. If several numbers are associated with the same person, tell the kit which one you want to dial by saying mobile, work, home, and so on.

* Function available on most Bluetooth mobile phones.
See www.parrot.com for further details.

Ultralight & stylish *Bluetooth* speakerphone

for mobile phone
for PDA
for smartphone
for iPhone

Wireless technology

Bluetooth

Bluetooth wireless technology enables voice and data to be sent via a short-distance radio link. It wirelessly connects a wide range of electronic equipment including mobile phones, computer, and many other electronic devices.
