Parrot UNIKA

Parrot UNIKA is an installable interface that connects your vehicle's steering wheel controls to any hands-free system in the Parrot MKi series, putting all the features of your Parrot hands-free system within easy reach, whatever the circumstances.

Integrated - the Parrot UNIKA solution is invisible inside the vehicle

Intelligent - compatible with all steering wheel controls

Universal - fits most vehicles on the market*

Simple - quick and easy to fit

Control your Parrot hands-free system

Keep your hands on the wheel! Easily make phone calls and control your music whenever you want. Regardless of how your steering wheel controls are configured, the Parrot UNIKA provides access to all the functions on your hands-free system through special key combinations. For example, a quick press on the "Volume +" key will let you answer an incoming call.

Ultra-fast installation

The interface's universal cable connects your Parrot hands-free system to your vehicle's electrical system quickly and easily. Once installed, an LED tells you whether the Parrot UNIKA interface has been correctly fitted to the vehicle.

Extended compatibility

The Parrot UNIKA interface works with all CAN-bus vehicle communication protocols and resistor ladders. In response to changes in the marketplace, Parrot UNIKA can easily be updated. For further information on updating and the list of compatible vehicles, refer to the «Support» section on our website at www.parrot.com
